Department of Family Therapy

Clinical Portfolio: Presentation Component

Therapist's Name: _____

Faculty reviewer: _____

Date:

Overall Outcome: Pass or In Progress (circle one)

The Clinical Portfolio is considered a capstone experience assessing the student learning outcome associated with advanced systemic/relational theory and ethical/professional clinical practice. In order to successfully pass the entire Clinical portfolio, students must pass BOTH the presentation as well as the written components. If either component is scored as “In Progress,” students must register for Clinical portfolio the following term.

In the presentation component of the Clinical Portfolio, students are assessed on their ability to grasp, integrate, embody, and be creative within a systemic/relational orientation to therapy and present these to a community of professionals and colleagues. **In order to pass the presentation component of the Clinical Portfolio, students must earn a “3” or higher in five of the seven categories, one of which must be category three (3), from each faculty reviewer.**

	0-2 points (In Progress) Meets this criteria from <i>not at all to moderately well</i>	3(Competent)-5 points (Pass) Meets this criteria <i>well to exceptionally well</i>
1) Student articulates and demonstrates innovation, creativity, and/or a well-grounded position in systemic practice and/or systemic theory.	Score/Comments:	Score/Comments:
2) Student articulates and demonstrates self-of-the therapist understandings and integration that have contributed to and been influenced by systemic theory and practice.	Score/Comments:	Score/Comments:
