Fort Lauderdale, Florida 33314

AWARDS: 2011/2012 Graduate School of Humanities and Social Sciences Professor of the Year

2002 Florida Association for Marriage and Family Therapy Contributions to Diversity Award

(for work with children in school settings)

CURRENT EMPLOYMENT:

1. Professor and director of Master's Program in Marriage and Family Therapy at Nova Southeastern University
2. Founder of and Supervisor for Systemic Change in Schools (community service of the NSU family therapy department):
 - PROMISE program: At the request of the Broward county school district, Dr. Rambo brought in teams of master's and doctoral family therapy students to form the counseling component of the innovative PROMISE program. The PROMISE program provides an alternative to suspension or arrest for at risk youth in the nation's third largest fully accredited school district. The PROMISE program has been featured on the front page of the New York Times, on NPR radio, and in other media coverage. During its first year of operation (2013/2014), the PROMISE program reduced schoolhouse arrests by 58 percent, and reduced recidivism from 50 percent to 5 percent. Dr. Rambo's work with the program has been featured at the national conference of school counselors, as well as numerous family therapy venues. The program was able to provide services in English, in Haitian Creole, in Spanish, and in French, as needed. In addition to the PROMISE program, Systemic Change in Schools works in high risk elementary and middle schools district wide.
 - RELATED RESEARCH: The PROMISE program involves long term outcome research conducted jointly with the district. In addition, Systemic Change in Schools has led to several research projects, including an appreciative inquiry exploration of what works for principals in low income schools (with doctoral student Ronit Horowitz), action research (with doctoral student Joan Collins), an appreciate inquiry into the success of the PROMISE program (with doctoral student Yolanda Sofiali) and other dissertation projects.

PAST PROFESSIONAL EXPERIENCE:

January 1989-December 1989:

Clinical supervisor, Nova University systemic family therapy doctoral program.

While completing my dissertation, I supervised doctoral students in four clinical practicums each semester, and taught practicum-related courses.

August 1987-September 1988:

Teaching/research assistant in Human Development department, Texas Tech University.

As a doctoral student, I taught the methods of child guidance course, required for human development majors, as the sole instructor, and supervised early childhood education interns at the university-sponsored nursery school.

July 1985-July 1987:

Family therapist, group coordinator, and Brief Therapy Service leader at Houston Child Guidance Center:

In 1985 I created the position of group coordinator, organizing a multidisciplinary group therapy program for the agency in addition to my other responsibilities. In 1986 I was promoted to the position of Brief Therapy Service leader, which meant that in addition to my clinical and group coordinating responsibilities, I was responsible for providing clinical and administrative supervision for a staff of six master's and doctoral level therapists, and for student interns.

January 1983-June 1985:

Clinician/researcher for the Texas Research Institute of Mental Sciences, Houston, Texas.

I carried a full caseload of contract and self-referred individual, marital, and family cases. In addition, I was one of three therapists involved in a research project comparing family therapy and multiple family group therapy treatment protocols with psychotic adolescents. As an outgrowth of this work, I provided clinical training to psychiatric residents and spoke to area medical schools on request. I left the agency when it lost legislative funding for such projects.

June 1981-September 1982:

Therapist for Austin Child Guidance Center.

I carried a full caseload of families referred by child welfare authorities; all cases involved the abuse or neglect of a child under six. The program was a pilot early intervention project of the Texas Department of Human Resources. On my own time, I organized a staff seminar on systems theory approaches. I left the agency to pursue greater training opportunities in Houston.

EDITORIAL ACTIVITIES:

Organized and selected poster presentations for the first annual conference of the Coalition for Collaborative Health Care, July of 1995

Member, Advisory Board, Grassroutes: Stories from Family and Strategic Therapists, a family therapy case studies journal, 1991 to 2000
