

PROQUEST.COM

GLOBAL VISIBILITY OF BREAKTHROUGH GRADUATE RESEARCH

ProQuest has been disseminating and archiving dissertations and theses since 1938. We add more than 90,000 new graduate works to our archive each year through active partnerships with more than 700 institutions worldwide. We are committed to supporting authors by providing broad access to this vital research.

INCREASE THE VISIBILITY OF YOUR WORK IN THE RESEARCH COMMUNITY

Make your dissertation or thesis visible in the largest dedicated dissertation and theses platform, ProQuest Dissertations & Theses Global (PQDT Global) database, which is accessed by more than 3,000 institutions worldwide. Your dissertation or thesis will be included in premier academic indexes, to enhance discovery in the path of researchers, including ABI/INFORM, Sociological Abstracts, ERIC, Institute of Physics (IOP), Wilson Art Full Text, PsycINFO, MathSciNet, NASA Astrophysics Data Systems and Chemical Abstracts.

Plus, your work can be discovered by important and notable research-related organizations, such as Abbott Labs, Siemens, Lawrence Livermore, Boston Consulting Group, U.S. Supreme Court, U.S. Fish and Wildlife Service, U.S. House of Representatives, Council for the Advancement and Support of Education, Institute for World Politics, and the Metropolitan Museum of Art.

CELEBRATE YOUR ACHIEVEMENT

Completion of your dissertation or thesis is a tremendous accomplishment. Today you stand on the shoulders of those who came before you. Now it's time to join them and highlight your work as part of the academic record. Because ProQuest is recognized as an official digital repository by the Library of Congress, your research will be accessible together with the work of other authors as part of the scholarly record. You can also celebrate your achievement by purchasing a high-quality bound printed copy of your dissertation or thesis for you, your family and friends.

CONTROL THE DISSEMINATION OF YOUR WORK—NOW AND IN THE FUTURE

ProQuest's non-exclusive publishing agreement means that you continue to be in control of dissemination of your dissertation or thesis enabling further dissemination on your own homepage, through your university's institutional repository or traditional publishing partners such as University Presses.

ProQuest offers the opportunity to earn royalties from the sale and access of your work. At participating schools, you have an open access option. We also offer a mechanism for institutional repositories, where you can specify the rights granted through a Creative Commons license. And, you can request changes to your dissemination options via the ProQuest service team at any time.
